CORTICOSTEROIDS

Do you use Corticosteroids ?

Fischer Chemicals AG is working with multiple manufacturers from Asia and Europe to cover your needs.

Did you know ?

- Corticosteroids were first used successfully to treat people with severe rheumatic disease in the late 1940s.
- Since then, research has made great progress and laboratories have developed a multitude of products for general or local treatment based on tablets, injectables, creams, ointments, etc.

According to recent articles in newspapers and published guidelines on WHO homepage, Corticosteroids may be used in the treatment of severe Covid-19 diseases. Fischer Chemicals can offer a wide range of different products, such as:

BECLOMETHASONE DIPROPIONATE	HYDROCORTISONE 21-CAPROATE
CLOPREDNOL	HYDROCORTISONE BUTYRATE
DIFLUPREDNATE	HYDROCORTISONE VALERATE
DEXAMETHASONE	PREDNISOLONE
DEXAMETHASONE ACETATE	PREDNISONE ACETATE
DEXAMETHASONE ISONICOTINATE	PREDNISONE BASE
DEXAMETHASONE 21-PALMITATE	PREDNISOLONE ACETATE
DEXAMETHASONE SODIUM METASULPHOBENZOATE	PREDNISOLONE BASE
DEXAMETHASONE 21-TERTBUTYLACETATE	PREDNISOLONE HEMISUCCINATE
DEXAMETHASONE 21-TRIMETHYLACETATE	PREDNISOLONE SODIUM SUCCINATE
DEXAMETHASONE 21-VALERATE	PREDNISOLONE SODIUM PHOSPHATE
HYDROCORTISONE ACETATE	PREDNISOLONE VALERATE ACETATE

We are here to support you! Please, feel free to ask us for offers, samples or even for technical doubts, we are at your entire disposal!
